

Cotswold laning – March 2014

Posted on [March 24, 2014](#) by [cdc](#)

Borg laning in the Cotswolds, March 2014

Thanks to Andy for organising a great laning day on Sunday. We had about 15 vehicles attend and we split into three groups. The route was over 100 miles starting at Pear Tree Park and Ride in Oxford and finishing at Gloucester Airport near Cirencester. We encountered a mix of lanes including some excellent hill climbs, fords and a few lanes which we think Andy probably checked out on his bike given the lack of a land rover sized hole through the overgrown woodland! No major damage was sustained in our group, other than a bent rear step on my 110 and some scratches here and there.
